Action Item: An item will be added to agenda to summarize ASA topics that concerns CASI.

Personnel Policy and Procedures (Helgeland)

Topic/Issue: The committee report on performance evaluations, probationary period, and merit was given.

a. Performance evaluations were conducted across campus. The Waisman Center was found to have one of the best tools on campus for evaluating employees and should be looked at as a model. The Waisman Center has volunteered to make the software tools available to any department or center on campus. The GS-CASI report recommends that the Graduate School implement an annual performance evaluation for all academic staff. This will provide feedback/dialogue between employees and employers to improve job moral and most of all a paper trail to help with promotions.

Discussion among CASI members is how performance evaluation is done across campus.

Action Items: GS-CASI has asked Julie to give a copy of the report to Dean Cadwallader. The report states that not all centers are doing annual performance reviews. The Waisman Center has a tool that is freely available to other centers for evaluation and this resource should be evaluated by other departments and centers to make the performance review more efficient. Copies of the materials gathered for the above report will be distributed to the Graduate School center/facilities administrators.

1. One-year probationary period is common among centers for both training and for new employees to understand what their job really entails. Committee felt a one-year probationary period is optimal and can always be shortened.

2. Merit is handled by only administration at some centers. Critical input is needed by supervisors and program managers, etc when determining merit issues for staff.

Action Items: Linda Haskins will survey each of the graduate school centers/facilities and obtain a copy of their promotional criteria.

Topic/Issue: Research professor title (fill in)

Professional Development (Simmons)

Topic/Issue: July 20 Brown Bag Lunch

UW-Madison Academic Staff Professional Development Resources: Brown Bag Luncheon Series was conducted on 20 July. The Brown Bag was very successful, 17 people attended (all from Waisman Center). Group discussion with about ½ attendees after Brown Bag lunch. Main issue was that people understood the grant they are working on but they have no idea where their
career is going. This was important and Don Schutt worked in a discussion about the ½ day seminar he presents on career day.

**Action Item:** Linda Tuchman wants volunteers for more Brown Bag lunches, Deborah Faupel (Biotechnology Center) and Wayne Feltz (SSEC) volunteered and will work out room availability.

**AD HOC COMMITTEE and GS COMMITTEE REPORTS:**

**Principal Investigator Issues (Faupel)**
Faupel reminded CASI Committee that an action item for last month’s meeting was a discussion of the continuance of this ad hoc committee.

**Topic/Issue:** GS-CASI felt that PI committee should continue as an ad hoc committee until first PI seminar conducted.

**Action Item:** Deborah and Wayne will continue working on the PI slides for an October seminar concerning what being a Principal Investigator on a grant really means.
