Quizzing in Learn@UW

Quiz Set-Up
1. In the course navbar, click Assignments and then choose “Quizzes.”
2. Click New Quiz.

Properties Tab:
3. Enter the quiz name.
4. Grade Item: If you’d like the grades to be connected to a gradebook item, create one here or choose one from the dropdown box.
5. Automatic Grade: To have the quiz automatically graded check the box here.

Restrictions Tab:
6. To make the quiz active, set Status to “Active”.
7. Set your start and end dates.
8. Under the heading Timing, you can set time limits for the quiz.

Attempts Tab:
9. Choose attempts Allowed from the dropdown box.
10. Choose which attempt you will use for their grade.

Submission Views Tab:
11. Click on “Default View.”
12. In this area you can choose what you’d like the students to see after they submit their quiz.

NOTE: In order for a quiz to be completely graded automatically, the quiz cannot include short or long answers.

Creating Questions:
2. Choose the question type you’d like to create and click Go.

Multiple Choice:
1. Assign a title, point value and a difficulty level.
2. Enter your Question Text in the text box.
3. To use an image, click insert an Image and choose a new or existing course image to include.
4. Use the drop-down list to choose an enumeration style.
5. Choose a display style.
6. Type in the question options (answer choices) in the text boxes. For more options, click the Add Option button.
7. Set the percentage weight of each option. Normally the correct answer is worth 100% (the % of available points) and the wrong answer is worth 0%.

True or False:
1. Assign a title, point value and a difficulty level.
2. Enter your Question Text in the text box.
3. To use an image, click Insert an Image and choose a new or existing course image to include.
4. Use the drop-down list to choose an enumeration style.
5. Choose a display style.
6. Set the percentage weight for each option.
7. Feedback can be used to give the student information on their choice.
