Structure and Meetings

The Nominating Committee (NC) met monthly. Members updated each other on projects; reviewed candidates’ information and made selections; determined future actions needed, such as recruitment efforts and communications with Academic Staff; and delegated tasks to each member for the upcoming month.

Accomplishments

We maintained a list of individuals who have expressed interest in being on various committees and the list was updated monthly. When the list did not already include interested persons for an opening, we continued the process of sending out notice to the Assembly Representatives, asking them to further solicit volunteers from their districts to serve on committees. This process continues to work well as far as generating interest and developing a more diverse pool of potential candidates.

We developed slates for elections to the following committees: ASEC, PPC, CEBC, DRC, and PDRC. The total numbers of candidates for each slate were as follows: ASEC (5), CEBC (4), DRC (3), PDRC (5), and PPC (4). We did see some challenges this year filling openings on several committees as we experience retirements across campus and departments experiencing budget and resource challenges.

The NC nominated candidates for 44 committees that included 47 individuals. The pool included 18 reappointments and 29 new appointments.
