Now that ICE/SEVIS has rescinded the broadcast message from July 6-7, the Graduate School Office of Admissions wanted to inform you of your options for changes to your I20. Please complete one of the following options by August 17, 2020:

1. Enroll in a hybrid schedule with online OR face-to-face courses
   a) Transfer students in the United States should apply for a transfer I20 in Terra Dotta. If you already have an I20 in-hand, please check in with ISS when you arrive on campus (can enroll in only online courses).
   b) New, initial students outside of the United States should proceed to their visa appointments with their I20. You must be enrolled in 1 in-person credit, please bring proof of enrollment to your visa appointment.

2. Enroll only in remote/online courses
   a) Remain outside the US for the Fall 2020 term.
   b) Request an I-20 program start date deferral to Spring 2021 from the corresponding Designated School Official listed below. In your email include your current SEVIS number and campus ID as well as the term you intend to come to campus.
   c) By enrolling in remote courses, your SEVIS number will stay the same and you will stay in active student status.

3. Change your Term of Admission to Spring 2021, Summer 2021, or Fall 2021
   a) Contact your program requesting to defer your admission term.
      i. Once your program has confirmed the changed start term and you have an I20:
         1. Email the corresponding Designated School Official as listed below that you need a new start and completion date. Include the term you will begin, your SEVIS number and Campus ID.
      ii. Once your program has confirmed the changed start term and you do not have an I20:
         1. Login to Terra Dotta and request an I20.
