Proposal Abstract/Summary:

The world of education produces vast amounts of data that impacts teaching, learning, and policy. This named option is intended to help students break down this "big data" into dynamic analyses that will help guide decisions and improvements in education. Coursework equips students with the foundational knowledge and skills necessary to successfully navigate the educational data mining landscape: a focus on both quantitative and qualitative courses provides balance and trains students to make calculated analyses and have meaningful conversations. Students will learn the theoretical perspectives on learning, cognition, and ethical decision-making, as well as practice applying and adapting analytic methodologies and tools. This 2-year program includes a capstone project that partners students with an educational organization, providing the opportunity to practice and present real-world data.

Graduates will be prepared to enter jobs working both within the education sector, such as independent education research organizations, education think-tanks and start-ups, textbook publishers, and education non-profits, and individual schools, districts, and state-level departments of education, as well as fields external to public education, such as online program management, international development organizations, the Department of Defense, corporate training, and assessment organizations.

Basic Information

Type of Program: Named Option
Parent Program: MAJ: Educational Psychology MS
Parent Audience: Graduate or professional
Parent Home Department: Educational Psychology (ED PSYCH)
Parent School/College: School of Education

The program will be governed by the home department/academic unit as specified. Will an additional coordinating or oversight committee be established for the program?

No
Parent is in the Graduate School: Yes
SIS Code:
SIS Description:

Transcript Title: Learning Analytics

Named Options:
- PROF ED: Professional Educator (MSPE)
- 283MSESSP: Edu Specialist in School Psych
- 283MSRSRCH: Research
- Sub Plan 1152: No Title Found

Does the parent program offer this as an additional major as well? Yes

Roles by Responsibility: List one person for each role in the drop down list. Use the green + to create additional boxes.

Are all program reviews in the home academic unit up to date? Yes
Are all assessment plans in the home academic unit up to date? Yes
Are all assessment reports in the home academic unit up to date? Yes

Mode of Delivery:
- Distance Education (100% online)
Provide information on how any lab courses required for the degree will be handled.

There are no lab courses required for the degree.

Will this program be part of a consortial or collaborative arrangement with another college or university? No

Will instruction take place at a location geographically separate from UW-Madison? No

Parent has outside accreditation: No

Graduates of parent program seek licensure or certification after graduation. No

First term of student enrollment: Summer 2021 (1216)

When will the application for the first term of enrollment open? Fall 2020 (1212)

Which terms will you allow new students to enroll? What are the application deadlines for each term selected?

<table>

</table>

Year of three year check-in to GFEC (3 years after first student enrollment): 2024

Year of first program review (5 years after first student enrollment): 2026

If this proposal is approved, describe the implementation plan and timeline.

Full development of course content will begin Summer 2020, including the filming of weekly lecture videos. Between 1 and 2 courses will be filmed each semester at least 9 months in advance of being offered in order to allow time for creative production steps. Marketing plans will be created and queued for implementation as soon as the governance process approves the plan.

Rationale and Justifications
How does the named option relate to the major and to other named options in the major, if relevant?

This new named option in Learning Analytics (MLA) program is a direct reflection of the department's unique balance and skill in both quantitative and qualitative methods. The faculty have a strong background in learning analytics practices and this new program provides an opportunity to channel that into a targeted specialization. Other named options within the major, the M.S. named option in Professional Educator (MSPE) and the Educational Specialist in School Psychology, complement the MLA program to expand the network of prospective students who are interested in pursuing a graduate degree in educational psychology. MSPE targets current working teachers, and the Educational Specialist targets future school psychologists. MLA targets students interested in analyzing learning, from the classroom level to the institutional level, who aspire to be future instructional designers, district or state-level analysts, educational assessment nonprofits, educational technology, etc.

Why is the program being proposed? What is its purpose?

The Department of Educational Psychology at UW-Madison is a leader in its field and on the forefront of new innovations and practices. Learning analytics is a growing domain that is garnering attention and resources at all levels of education (school, district, colleges and universities, state and federal Departments of Education), learning technologies and publishers, etc. And while the practice of learning analytics is getting widespread, the number of institutions offering training in learning analytics is still small. There is a niche, especially in the Midwest region, that can be filled by the leader in the field. Further, the specializations of the Department of Educational Psychology faculty directly transfer to a named option in Learning Analytics. Their expertise has already been established and the program will corral the department's strengths into a timely and strategic named option in Learning Analytics program.

Do current students need or want the program? Provide evidence.

This program caters to new audiences not served by the department’s current programming. Current masters students will most likely remain within their current program and not transfer into this new 131 program. However, it is a program into which UW-Madison undergraduates can transition and a program for which there is growing interest. The established enrollment goals are reasonable, and all courses are designed to be scalable, should there be a higher number of qualified applicants.
What is the market, workforce, and industry need for this program? Provide evidence.

The Division of Continuing Studies performed a labor analysis in summer 2019 and determined that there is indeed a strong need for this program. From their report:

Bachelor’s degrees are most commonly required for entry into jobs that are looking for candidates that have studied Learning Analytics. However, there are four times as many jobs than average looking for candidates with a master’s degree, making this a good fit for a graduate program. Of the jobs that specify they are interested in candidates with a master’s degree, most expect those candidates to have 0-5 years of experience. With the biggest buckets of job postings looking for 0-2 (33%) or 3-5 (48%) years of experience, a Learning Analytics master’s program would be poised to accept the early professional audience. There are 20 times more job postings if instructional design skills are added to the search and the program ranks much more favorably among the existing portfolio of analytics and education programs. The most common occupations looking for candidates that match the report filter are all expected to grow about 10%. Jobs posted in 2017: 1,733. Jobs posted in 2018: 2,950.

What gap in the program array is it intended to fill?

The number of careers in data analytics is growing, and there are a plethora of institutions offering degrees that focus in business analytics. Careers in data analytics applied to learning and education are increasing, and there are only a small number of universities offering graduate programs to support this growth. As of 2019, only Georgetown and Columbia Universities offer an in-person, and Northeastern and American Universities offer an online, masters degree in learning analytics. and Brandeis, Northcentral, and University of North Dakota offer some sort of online certificate in learning analytics. There is a clear need for the program and a clear niche in the Midwest.

There are offerings at UW-Madison related to analytics, but outside the education domain. For example, the School of Business offers an MS in Business Analytics; the College of Engineering offers an online Masters in Engineering Data Analytics; the iSchool offers a capstone certificate in Analytics for Decision Making; MBA in Marketing Analytics and Insight. No current offering addresses analytics in education.

Faculty and Staff Resources

List the core program faculty and staff with title and departmental affiliation(s) who are primarily involved and will participate in the delivery and oversight.

<table>

Confirm that the program advisor(s) or coordinator(s) have been consulted and reviewed this proposal.

The Educational Psychology Department is committed to supporting faculty and staff with the appropriate time and tools needed. The department's Graduate Student Services Coordinator, Department Administrator, and Technical Support Specialist all have appointment percentages with the program and will be in touch with both faculty and students. The program's director will be the point of contact for students, faculty, instructors, and TAs. Because this is an online program, there will be instructional design support from DoIT AT throughout course development and program implementation.

Program advisor(s) with title and departmental affiliation(s).

</tr>
</tbody>
</table>

Describe how student services and advising will be supported.

The department's Graduate Student Services Coordinator is on staff to support students throughout the application and enrollment process. The program's director will work with students and be their touch point as they navigate through the curriculum. Formal faculty advisors will not be assigned, but students will be encouraged to discuss career planning, concerns, etc. with the program's director who may connect them to other staff or faculty, when appropriate.

Confirm that the program advisor(s) or coordinator(s) have been consulted and reviewed this proposal.

**Resources, Budget, and Finance**

Is this a revenue program? Yes

What is the tuition structure for this program? Online/Distance per-credit tuition
Select a tuition increment:

$1,000/credit

What is the rationale for selecting this tuition increment?

The School of Education typically charges $800-1,000 per credit for online programs. This program is in line with the limited number of other competitive programs; the closest competitor, American University, offers a 30-credit online MS in Instructional Design and Learning Analytics and charges $1,345 credit. The two in-person masters in learning analytics programs at Columbia University (32 credits) and Georgetown University (30 credits) charge $1,700 and $2,200 per credit, respectively. The two online graduate certificate programs at Brandeis University (15 credits) and Northeastern University (16 credits) charge $1,179 and $600 per credit, respectively.

Will segregated fees be charged?

No

If segregated fees will not be charged, please explain.

This is an online program that will not utilize services supported by segregated fees.

Provide a summary business plan.

The named option in Learning Analytics will have a tuition rate of $1000/credit, for a total of 30 credits per student. The program selected $1000/credit based on market analysis of peer institutions and expected program costs and revenue (see attached Online Tuition Request Form for a detailed explanation and competitive analysis).

The program projects long-term enrollment beginning at 15 students per cohort and increasing to over 50 students per cohort by year 8. As enrollment targets are met, projected revenue will be over $1 million annually after year 6.

The costs for this program are primarily for 1. course development (includes faculty and media production) 2. instructional staff (includes academic staff, external lecturers, and teaching assistants) 3. director role (full time) 4. administrative support of marketing and student advising. All instruction for this new named option will be funded through 131 funds. Research faculty will be paid for their MLA teaching through 131 funds but will otherwise be funded as previously through 101 funds.

All surplus revenue will initially be used to support new faculty lines, student scholarships, and professional development (see attached budget worksheet for how the department plans to invest the margin). The Educational Psychology Department Chair James Wollack and Administrator Jennifer Krug will manage funds and support budget planning and projections with support from the program's Director Julia Rutledge.
Provide an overview of plans for funding the program including but not limited to program administration, instructional/curricular delivery, technology needs and program assessment.

The program will be funded by tuition dollars. See attached budget spreadsheet. The budget spreadsheet demonstrates program support through Julia Rutledge serving as full-time Program Director. The planning document reflects a commitment of the department to designing the program with sufficient student support. In the event of enrollment increases, TAs would have to be added for managing higher enrollment in courses and additional program support would also be added via staffing.

What is the marketing plan?

Because this is a fully online named option for a worldwide industry, there is opportunity for a global audience. Targeted social media advertising will be paramount, as will Google Pay-Per-Click advertisements. This named option can also take advantage of Google Search ads (in-person programs normally do not). Key words will be determined with the support of the DCS labor analysis and deeper industry investigations into strategic terms. The marketing plan will also include utilizing search engine optimization (SEO) on a variety of web pages, capturing key word terms that will bring people to the program’s pages.

Further, the plan includes pinpointing professional organizations and obtaining member lists for targeted email blasting, as well as having a physical presence at strategic conferences. There are a small number of conferences applicable to this named option, specifically the Learning Analytics and Knowledge annual conference, the Distance Teaching and Learning Conference held each year in Madison, and the Educational Data Mining annual conference.

The School of Education’s marketing team is poised to begin working on developing the named option’s campaign in summer 2020, with the goal to begin the campaign’s implementation early in the fall 2020 semester.

Does the program or change require substantial new resources other than those just described? Describe the needs. Confirm that the dean is committed to providing the resources.

This program will require resources (media production) to create and convert the courses to online format. These resources have been included in the 131 Budget Worksheet, which has been approved by the Dept, SoE, and DCS, with the Dean's commitment.

Are new Library resources needed to support this program?

No
Describe plans for funding students including but not limited to funding sources and how funding decisions are made.

Students will be expected to pay their own tuition. 5% of the budget is allotted to scholarships or waivers for under-represented students or exceptionally strong students. There will also be some teaching assistant options available for students (2/semester have been budgeted). We intend to increase scholarship funds to MLA students with any revenue that is generated beyond expenses (first priority).

Curriculum and Requirements

Parent Plan Admissions/How To Get In Requirements

Students apply to the Master of Science in Educational Psychology through one of the named options:

- Educational Specialist in School Psychology
- Learning Analytics
- Professional Educator (MSPE)
- Research

Letters of Recommendation 3
Required
Admission's criteria for the MS Educational Specialist in Learning Analytics Named Option include:

1. A bachelor's degree from a regionally accredited U.S. institution or a comparable degree from an international institution is required. International applicants must have a degree comparable to a regionally-accredited U.S. bachelor's degree.

2. A minimum undergraduate grade-point average (GPA) of 3.00 on the equivalent of the last 60 semester hours (approximately two years of work) or a master's degree with a minimum cumulative GPA of 3.00 is required. Applicants from an international institution must demonstrate strong academic achievement comparable to a 3.00 for an undergraduate or master's degree.

3. Every applicant whose native language is not English, or whose undergraduate instruction was not in English, must provide an English proficiency test score.

4. Reasons for graduate study/statement of purpose.

5. Curriculum vitae or resume.

6. GRE scores from within the previous 5 years.

7. Transcripts from previous institutions.

8. Letters of Recommendation

Describe plans for recruiting students to this program.

In looking at the next step beyond the marketing campaign (referenced above), student recruitment will focus on driving conversations with the Graduate School enrollment staff and creating a lead-nurturing campaign. A targeted campaign will also look on campus and within the UW system to pinpoint students in feeder programs, and graduates of feeder programs, and obtain as many lists of applicable students as possible for a targeted alumnae campaign.

Named Options

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Educational Psychology must select one of the following named options:

- **Educational Psychology: Educational Specialist in School Psychology, M.S.**
- **Educational Psychology: Professional Educator (MSPE), M.S.**
- **Educational Psychology: Research, M.S.**

Last Approved: Oct 25, 2018 11:30am

Evening/Weekend: These programs are offered in an evening and/or weekend format to accommodate working schedules. Enjoy the advantages of on-campus courses and personal connections, while keeping your day job. For more information about the meeting schedule of a specific program, contact the program.

Online: These programs are offered primarily online. Many available online programs can be completed almost entirely online with all online programs offering at least 50 percent or more of the program work online. Some online programs have an on-campus component that is often designed to accommodate working schedules. Take advantage of the convenience of online learning while participating in a rich, interactive learning environment. For more information about the online nature of a specific program, contact the program.

Hybrid: These programs have innovative curricula that combine on-campus and online formats. Most hybrid programs are completed on-campus with a partial or completely online semester. For more information about the hybrid schedule of a specific program, contact the program.

Accelerated: These on-campus programs are offered in an accelerated format that allows you to complete your program in a condensed time-frame. Enjoy the advantages of on-campus courses with minimal disruption to your career. For more information about the accelerated nature of a specific program, contact the program.

Guide Graduate Policies tab

Approved Shared Content from /shared/graduate-school-policies/
Last Approved: Oct 25, 2018 11:30am

Graduate School Policies

The Graduate School’s Academic Policies and Procedures provide essential information regarding general university policies. Program authority to set degree policies beyond the minimum required by the Graduate School lies with the degree program faculty. Policies set by the academic degree program can be found below.

NAMED OPTION-SPECIFIC POLICIES

PRIOR COURSEWORK

Graduate Work from Other Institutions
No credits from other institutions are allowed to count toward the degree.

UW–Madison Undergraduate
No credits from a UW–Madison undergraduate degree are allowed to count toward the degree.

UW–Madison University Special
No credits taken as a UW–Madison University Special student are allowed to count toward the degree.

PROBATION

The Graduate School regularly reviews the record of any student who earned grades of BC, C, D, F, or Incomplete in a graduate course (300 or above), or grade of U in research credits. This review could result in academic probation with a hold on future enrollment or in being suspended from the Graduate School.

ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

The advisor for the MLA program is Dr. Julia Rutledge.
CREDITS PER TERM ALLOWED

12 credits

TIME CONSTRAINTS

Master’s degree students who have been absent for five or more consecutive years lose all credits that they have earned before their absence. Individual programs may count the coursework students completed prior to their absence for meeting program requirements; that coursework may not count toward Graduate School credit requirements.

GRIEVANCES AND POLICIES

Approved Shared Content from /shared/graduate-school-grievance-policy/
Last Approved: Apr 14, 2020 3:18pm

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting
- Graduate Assistantship Policies and Procedures
- Hostile and Intimidating Behavior Policies and Procedures
- Office of the Provost for Faculty and Staff Affairs
- Dean of Students Office (for all students to seek grievance assistance and support)
- Employee Assistance (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office of Student Conduct and Community Standards (for conflicts involving students)
- Ombuds Office for Faculty and Staff (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (for concerns about discrimination)

Approved Shared Content from /shared/education-grievance-policy/
Last Approved: Apr 14, 2020 3:06pm

Any student who feels that he or she has been treated unfairly by a faculty or staff member has the right to complain about the treatment and to receive a prompt hearing of the grievance, following these grievance procedures. The complaint may concern course grades, classroom treatment, program admission, or other issues. To insure a prompt and fair hearing of any complaint, and to protect both the rights of the student and the person at whom the complaint is addressed, the procedures below are used in the School of Education.

The person whom the complaint is directed against must be an employee of the School of Education. Any student or potential student may use these procedures unless the complaint is covered by other campus rules or contracts.

The following steps are available within the School of Education when a student has a grievance:
The student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant, and the student is not satisfied, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is not resolved satisfactorily, the student may continue to step 2.

If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.

On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a timely written decision to the student on the action taken by the committee.

If either party is not satisfied with the decision of the department, he or she has five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.

In either case, there will be an attempt to resolve the issue informally by the associate dean. If this cannot be done, the complaint can be filed in writing with the dean's office. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.

On receipt of such a written complaint, the associate dean will convene a subcommittee of the school's Equity & Diversity Committee. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Education who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from the date when the grievance was filed with the dean's office.

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office of Compliance, 361 Bascom Hall, 608-265-6018, uwcomplianceoffice@wisc.edu.

**OTHER**

Students in the MLA program are not permitted to hold assistantships with tuition remission.
Discuss expected progress to degree and time to degree. For undergraduate programs discuss considerations for supporting students to complete the degree in four academic years.

Students are expected to complete the degree within 6 semesters (including summers) or two full years.

**Program Learning Outcomes and Assessment**

**Parent Program**

**Learning Outcomes**

- Acquire a strong foundation in current and past theories, research findings, and methodologies in their program area.
- Become acquainted with the implications of human diversity (in terms of individual abilities and orientations and sociocultural backgrounds) for research and practice in their chosen field of study.
- Learn the fundamentals of research design, data collection, and data analysis through participating in ongoing research or conducting their own research project(s).
- Identify key features of high-quality research or program implementation/evaluation in their chosen field.
- Develop writing and oral skills needed to effectively communicate results of scientific research to academic, professional/practitioner, and lay audiences.
- Learn how to conduct research or program implementation/evaluation in accordance with ethical standards established in their field of inquiry.

**Summarize the assessment plan.**

Learning Outcomes will be assessed through both direct and indirect assessment methods. A primary outcome will be the completion and presenting of a culminating Capstone Consulting Project. Other assessments include course evaluations, graded assignments, annual student focus groups, exit survey, 1 year and 5 year alumni survey, and employer survey.

This named option is specifically included in the overall assessment plan for the major by adhering to that plan's focus on knowledge, research and evaluation, communication, and ethical conduct and conducting assessments in-line with those described by the parent plan.

**Commitments**

All required courses are approved through the school/college level.

Yes

Courses are offered on a regular basis to allow timely completion.
Yes

Courses have enrollment capacity.

Yes

Students may complete only 1 named option within a plan code.

Yes

The program faculty/staff will ensure the program website, Advance Your Career materials if applicable, and other presentations are consistent with the Guide information for this program.

Yes

Credential will not be awarded retroactively to students who completed all of the requirements before the credential was approved.

Yes

### Approvals

**Department Approval** - This proposal has been approved by the faculty at the department/academic unit level. The program faculty confirm that the unit has the capacity and resources (financial, physical, instructional, and administrative) to meet the responsibilities associated with offering the program, including offering the necessary courses, advising students, maintaining accurate information about the program in the Guide and elsewhere, conducting student learning assessment and program review, and otherwise attend to all responsibilities related to offering this program.

Enter any notes about approval here:

Approved at the March 9, 2020 meeting of the Educational Psychology Department.

Entered by: Elizabeth Jach
Date entered: 4/15/20

**School/College Approval** - This proposal has been approved at the school/college level and it is submitted with the Dean’s support. The Dean and program faculty confirm that the unit has the capacity and resources (financial, physical, instructional, and administrative) to meet the responsibilities associated with offering the program, including offering the necessary courses, advising students, maintaining accurate information about the program in the Guide and elsewhere, conducting student learning assessment and program review, and otherwise attend to all responsibilities related to offering this program.

Enter any notes about approval here:

Approved at the 4/3/20 meeting of the SoE Programs Committee and the 4/15/20 meeting of the SoE Academic Planning Council.

Entered by and date: Elizabeth Jach
Date entered: 4/15/20

**GFEC Approval** - This proposal has been approved by the Graduate Faculty Executive Committee and the Dean of the Graduate School.
UAPC Approval - This proposal has been approved by the University Academic Planning Council and the Provost.

Reviewer Comments

Karen Mittelstadt (mittelstadt) (04/23/20 2:23 pm): Mittelstadt/APIR is advancing new named option proposal to GFEC Approver step without the accompanying parent proposal (i.e., MS-Ed Psych). That parent proposal is currently in the Guide/RO step for the June update and is thus not available to ride-along with the new NO proposal. Per Mittelstadt discussion with Alsteen 23 April 2020, GFEC will take up Learning Analytics named option proposal at its May 2020 meeting without the ride-along parent proposal. This will enable UAPC to take action also at its May 2020 meeting. Per Mittelstadt's conversation with Elizabeth Jach (SoEd), once the parent MS-Ed Psych proposal is back on the shelf (in early May), Jach will send it back through to pick up the new named option. There are no changes to the parent MS-Ed Psych Program Learning Outcomes or assessment plan as a result of the new named option.
