1. Is the project limited to preparing for publication a single case report involving up to three (3) patients?
   □ Yes
   o Case Reports involving three (3) or fewer patients do NOT require IRB review. Please be aware that the HIPAA Privacy Rule may still apply. Please contact the HIPAA Privacy Office (contact information available at http://hipaa.wisc.edu/). See http://my.gradsch.wisc.edu/hrpp/10048.pdf for additional guidance related to case reports.
   □ No
   o IRB review may be required.

2. Is the proposed research study limited to secondary analysis of data from a publicly available dataset(s) found at http://my.gradsch.wisc.edu/hrpp/10023.htm?
   □ Yes
   o Research involving only analysis of data from a listed publically available dataset is not considered "human subjects research" and does not require IRB approval.
   □ No
   o IRB review may be required. NOTE: If you wish to have a publically available dataset added to the list, contact the Office of Research Policy (see http://my.gradsch.wisc.edu/hrpp/10023.htm).

3. Is the proposed research study limited to the inclusion of deceased individuals?
   □ Yes
   o Research involving information or samples from deceased individuals only does not constitute human subjects research and therefore does not require IRB oversight.
   □ No
   o If your project involves data or samples from deceased and living individuals, or all living individuals, your study involves human subjects research and IRB review is required.
